Exonerated Of Guilt

The adjourned case of Mrs. Nellie R. Sanford of Worcester, driver of the car which killed Albert Mead on Main street in Northfield September 27 came up for consideration at Greenfield in district court on Thursday morning last. State Patrolman Theodore W. Peters testified that Mrs. Sanford's car had stopped more than 100 feet from the center of the road after hitting Mead, who had been talking with someone in a parked car and had started across the road in the path of the Sanford machine. State Inspector Patrick S. O'Donnell corroborated the officer's statements. Mrs. Sanford testified her brakes locked after the car had hit a depression and that in trying to avoid Mead she had swerved into the adjacent field. Both she and her mother, who was riding with her, maintained the brakes and other equipment on the car were in perfect condition.

A decision of not guilty of driving so as to endanger the public was made by Judge Philip H. Ball. Atty Charles Fairhurst represented the defendant.

Boys, Take Notice!

Seems as if there is a good chance for an athletic and recreational movement among the boys of Northfield! They are inviting the boys and men of Northfield to come and hear all about it at the Town Hall next Friday evening October 23 at 7.30. Mr. Axel B. Forslund, athletic director at Mount Hermon and Richard Watson will make addresses.

EDITORIAL

The union of all Christian forces at this "most critical period in world history" is being advocated by Dr. Toyohiko Kagawa, head of the Social Bureau of Tokyo.

Dr. Kagawa, who is known throughout the world as a Japanese Christian Socialist, has conferred with leaders of public opinion in the United States during the last four months, and will continue to discuss economic, social and religious conditions in the Orient.

"This is not only a critical time in Japan," he declared, "but the most critical period in world history, for if the pendulum swings to the left against the Christian church, there will be failure and it will be difficult for the Christian religion to recover its strength."

Dr. Kagawa opposes the use of the term "foreign" as applied to missionary work, and suggested the term "world mission" instead. "There is a great need of a revival of faith," he said, "therefore, let us forget national and racial differences and take Christ seriously in this most critical time."

The remarks of this great Christian statesman may seem pessimistic to many but they have the earmarks of a zealous patriot in the army of the cross.

The hunting season is now on but a little later will be in full blast with the woods overrun with hunters of all kinds and of every description. Raymond J. Kenney director of the division of fish and game states that 132,647 hunting licenses were issued last year with returns from 43,941. This looks like a large army to scour the woods. He gives a most sensible warning however to all gun bearers in the following words:

"Hunters should bear in mind the rights of property owners." "Trespass laws should be strictly observed. Posting of land today against hunting is largely the result of abuses committed in the past by some of the hunters. Sportsmen should conduct themselves on the property of others as they would on their own land. It is only through the co-operation of the landowners with the hunter that hunting is permitted in this state and sportsmen should do all in their power to keep their relations amicable. Be extremely careful of fire. Many serious fires in the past, running into heavy property damage in the woodlands, have been laid to the matches, pipe, cigars and cigarettes of the hunters. Whether this blame is deserved or not, the hunters should try to set an example to the rest of the people by guarding the forests."

A visitor to Northfield who had spent the summer here said recently that he pictured the town as having high ideals, a superior citizenship and an orderly condition of affairs, before his arrival owing to impressions gathered because of school and conference publicity. Now after a summer he states that he finds we are much like all other towns of like size and character except that in some ways human thinking is somewhat at odds. Now the Editor has not analyzed just what he meant but it does seem as if we all may not ponder over the estimate of a stranger's impression. Here in Northfield—small enough so that we know each other—large enough so that we may dwell with full individuality—we live as one large family and in the spirit of love and charity—fair dealing and four-square relations why not be considered as each other's good and welfare without malice covetousness or selfishness—to try to live and let others live or in other words to make our neighbors better for our being—that would be true religion—pure commercialism and esteemed friendship. That would make Northfield better than other towns and sustain the impression of the stranger that Northfield has been indeed true to its propaganda publicized these many years.

Forgotten Savings

Franklin County has \$1708.73 in its Savings Banks which have practically been forgotten and are unclaimed.

Forgotten savings on deposit in Massachusetts savings banks total nearly \$860,000, according to a list of inactive accounts compiled at the office of Bank Commissioner. The figures reveal approximately \$195,000 in personal inactive accounts, deposits left for 30 years or longer, and about \$160,000 in probate accounts, which were declared inactive after 20 years. Under state banking laws, these funds deposited by absent-minded citizens or by persons who have disappeared, will revert to the state treasury after due process.

In Hampden county, figures compiled by state officials reveal, there is a total of \$31,391.81 in inactive probate accounts and \$3251.95 in inactive personal accounts. The totals for other Western Massachusetts counties are as follows: Berkshire, \$1667.30 and \$2134.77; Franklin, \$1393.02 and \$315.69; Hampshire, \$86.38 and \$315.31.

OBITUARY

MRS. CLEMENT C. HOLTON

Mrs. Sarah A. V. Holton, widow of Clement C. Holton well known in Northfield and a former resident of Hinsdale, N. H., died Thursday October 15th at her home in Melrose, Mass., at the age of 85. She had been in poor health for some time past.

She was a direct descendant of John Upham the first of that family who came to that part of the country now called Melrose in 1648 and whose remains lie buried there. Her father was Eri Upham and Mrs. Holton was one of eight children.

She was a member of the Women's Relief Corps—and the Sons of Union Veterans auxiliary—also the Eastern Star of Hinsdale, N. H.

She married George M. Loring and had three children: Frederick M., Mary L., and Mrs. Anna Manley all of whom survive in Melrose.

In May 1913 she was married to Clement C. Holton of Hinsdale, N. H., who was an old schoolmate. Mr. Holton died in 1928 and is buried in Pine Grove Cemetery in Hinsdale. Mrs. Holton is survived in addition to her three children by her first marriage three sisters and a brother, nine grandchildren and five great grandchildren. Funeral services were held at Melrose last Saturday and burial was in the Wyoming Cemetery.

WILLIAM ALLEN

On Sunday last there passed away in death, one whom many of our people in East Northfield especially summer residents knew and loved as a real typical New England character. He was known to all as Willie Allen although 76 years of age at death and lived on the Winchester Mountain Road with his sister Leita Allen who survives him. In his early days he had worked for Mr. L. R. Smith and prided himself upon being an expert woodsman. Of late years he had worked for many of our summer residents in that section. He had been born and always lived in that section and probably had never enjoyed the sights of any larger city. His funeral was conducted Monday by Rev. W. W. Coe and burial was at Winchester, N. H.

GRACE H. HAMILTON

Among those who are passing from us will be remembered Grace H. Hamilton whose death recently was noted. A great Bible teacher who only a few years ago conducted the Bible classes in Music Hall at the General Conference at the time when Dr. H. E. Kirk was with us. She was a graduate of the Biblical Seminary in 1917 and at the time of her death she was Dean of the Gramercy School for Training Christian Workers, West, New York. Miss Hamilton's achievements in her field and her personal life, so marked by Christian faith and gentleness, and by quiet, persistent striving, must be considered in weighing her influence and the value of her testimony.

Many in Northfield, who attended her classes, will keep her in loving memory.

The People's Forum

Dear Folks:—

What progress has our community made in the last ten or twenty years toward recreation for its youth? Do we have an ideal school with everything to take up every spare minute of time? Absolutely not. Think, parents. When you went to school, not so very long ago, wasn't there dissatisfaction and rumblings of discontent among you? Didn't you always have something to say about "all work and no play"? Weren't your noon hours spent huddled around the furnace, or in the halls? Why?—? Because there was nothing to do! What you wanted and what we want is some form of recreation. What? Why, a gym! A place in which to exercise, where we are gaining at the same time. Do you want your children to leave school, spineless, undersized creatures, with nothing to do but gossip? In most states, we have learned in Problems of Democracy class, physical education is a state requirement. Isn't Massachusetts up to other states? Doesn't she pride herself, and rather pats herself on the back for her advance? Why not have a gymnasium in Northfield High school—a grade A institution? It brings up the problem of money. You say, a gymnasium is expensive, but think, is it? Instead of using the basement of the school for a wood and coal bin, why not fix it up? Wood can be stored in an inexpensive shed—lockers made in the halls, and the whole downstairs, with its empty rooms converted into a paradise for the students. The room is there, we need the equipment. Get busy, folks, and think it over. Isn't it what you, yourself wanted? Be honest.

The Hotel Gift Shop

Taking a look at the gift shop at the Northfield Hotel is like taking a trip abroad. The display of finery, gold and silver takes one to the market places and shops of China, India, other countries—where similar sights Japan, Italy, France, Germany and greet the eye in the display of attractive things. You need not stay at the Northfield to be privileged to look over the display but you will certainly want to spend some time when you do go to the Hotel—the sight of the fine things in those show cases and the exhibits under the skillful handling of Miss Hess will tempt you—but always with satisfaction. You are always welcome at the gift shop at the Northfield.

The Poet's Corner

Keep on lookin' for the bright, bright skies,
Keep on hopin' that the sun'll rise;
Keep on singin' when the whole world sighs—
And you'll get there in the mornin'.
Keep on sowin' when you've miss'd the crops,
Keep on dancin' when the fiddle stops,
Keep on faithful till the curtain drops—
And you'll get there in the mornin'.
Keep on trustin' in the cause of Right
Keep on lookin' to the dawn of Light,
Keep on fightin' till you've won the fight—
And you'll get there, and you'll get there in the mornin'.
Rotary Song.

A MESSAGE

It isn't the man who smiles that counts,
When everything goes dead wrong,
Nor is it the man who meets defeat
Singing a gay little song.
The song and the smile are well worth while,
Provided they aren't bluff,
But here's to the man who smiles and sings,
—And then—Produces the stuff.

THOUGHTS

"You never can tell what your thoughts will do,
In bringing you hate or love;
For Thoughts are things, and their airy wings
Are swifter than carrier doves.
They follow the law of the universe,
Each thing must create its kind;
And they speed o'er the track to bring you back
Whatever went out from your mind."
Anon.

COME UP HIGHER

I saw the mountains stand
Silent, wonderful, and grand.
Looking out across the land
When the golden light was falling—
On distant dome and spire;
And I heard a low voice calling,
"Come up higher, Come up higher,
From the lowland and the mire,
From the mist of earth desire,
From the vain pursuit of self,
From the attitude of self;
Come up higher, come up higher."
James G. Clarke.

But once I pass this way, and then—no more.
But once—and then the Silent Door
Swings on its hinges, open—closes,
And no more I pass this way.
So, while I may, with all my might
I will essay sweet comfort and delight
To all I meet upon the Pilgrim Way.
For no man travels twice the great Highway,
That climbs through Darkness up to Light—
Through Night—to Day.
John Oxenham.

AUTUMN IN THE BERKSHIRES

Last night as we lay sleeping, when the world itself seemed dead,
A sly and wanton artist, out to paint the country red.
With a brush dipped deep in mischief and a palette of bright hues,
Flew swiftly through the forest on his way to spread the news.
For the summertime is over, and on every bush there lies
A strange and gypsy color that reflects the sunset skies;
The world is tinged with loveliness both beautiful and new,
As the vagrant clouds send shadows out across the red-glow view.
The mountain is a masterpiece of this mad painter's art;
The lake reflects its beauty in its silver-rippled heart;
The glory of the autumn has a grip upon my soul;
I can not tear myself away from this Arcadian knoll.
The leaves are burned-up sunlight, and the skies are brilliant blue;
The hills were my first love of all, and to the hills I'm true.
Where the Berkshires rear their flaming heads to drink the crystal air
Its a Paradise of color and I'm longing to be there.
Billikin

Central Vermont R. R. To Operate Busses

Permission to form a corporation to be known as the Central Vermont Transit Corp., and to conduct a motor bus and truck business was asked of the public service commission of Vermont at Montpelier last week by officials of the Central Vermont Railway in their capacity as individuals.

The petitioners asked the commission to conduct a hearing on the application and grant a public good certificate permitting the establishment and maintenance of the corporation. The proposed authorized capital is \$50,000, divided into 500 shares of a value of \$100 a share.

The proposed articles of association provide that the corporation own and operate motor busses or motor trucks within and without the state of Vermont on regular schedules, over fixed routes and between stated terminals, and that it transport by motor bus or motor truck, for hire, either as a common carrier or under private contract, persons, property, baggage, freight, express and mail.

It is quite probable that the corporation will seek further rights in Massachusetts and Connecticut on roads and through towns paralleling the Central Vermont Railway which might mean a new bus line from Brattleboro via Vernon through Northfield to Millers Falls and places south.

Work Starts On Taconic Trail

Motorists of Northfield who have
 not seen or traveled the Taconic
 Trail over the Taconic mountains west
 from Williamstown to Troy via Pe-
 tersburg have missed one of the finest
 automobile trips in this section. One
 can now go to the trail and summit
 for the magnificent panoramas and the
 journey is only a day's trip which the
 Editor can commend to all autoists
 who seek a one day holiday. How-
 ever after this week it might be well
 to avoid the through trip to Troy as
 grading of the Troy-Grafton-Peters-
 burg road, preliminary to reconstruc-
 tion began last Monday.

Three steam shovels have been
 moved to Petersburg. Reconstruction
 will begin at Petersburg and continue
 on to Quackelkill. The remainder of
 the reconstruction project will be let
 under separate contract. The work
 now being started will continue as
 long as the weather permits and will
 be resumed in the spring. The pro-
 ject will furnish a greatly improved
 highway from Taconic trail westward
 which will be greatly welcomed by
 motorists who travel the trail.

Primeval Forest Trip Postponed

The trip of the Historical society
 to the primeval forest north of Hin-
 sdale which was scheduled for last Fri-
 day was postponed on account of rain.
 The society will try to set another
 date before the snow comes for the
 expedition to this interesting spot,
 under the guidance of Mr. Paul Mann
 of Hinsdale.

 of yellow on green, Porto Rico, white
 on brown, and Alaska, white letters
 on a dark blue background.

Governor Ely Raps Officials Who Charge Ten Cents Auto Mileage

Speaking before a group of men in
 the Park Street Church Wednesday
 October 14th, Governor Joseph B.
 Ely stated "that the executive council
 on recommendation of the adminis-
 trative and finance commission had
 reduced the mileage allowance to state
 employees on official business from 8
 to 10 cents a mile to six cents a mile.
 The new allowance is a flat rate, ir-
 respective of the make of car of the
 employee. Previous allowances depend-
 ed upon the make of the cars.

Concerning the cut in mileage for
 cars of state employees, he stated that
 some years ago the council allowed a
 charge of 10 cents a mile for the
 higher-priced cars and eight cents for
 smaller cars. He said that the em-
 ployees charged as high as \$10 per
 for a hundred miles of travel because
 of this rule, whereas if the trip was
 made by train the cost would be not
 more than \$3 or \$4.

"This has been running on since
 then," he continued. "You can make
 a profit on 10 cents a mile."

For several years business houses
 have allowed their representatives six
 cents a mile for their traveling and
 this move by Governor Ely will make
 for sensible economy.

Gandhi, In Letter, Approves Dry Law

The Massachusetts Anti-Saloon
 league has received a letter from Ma-
 hatma Gandhi of India who is in Lon-
 don at present attending a conference
 with government officials on Indian
 affairs. The letter received by State
 Superintendent Arthur J. Davis of the
 league was presented to a meeting of
 of state leaders of the anti-saloon
 league in Boston on last Friday. The
 letter reads:

"It was a brave step worthy of
 America, to have undertaken the most
 difficult task for her total prohibition.
 It would be a shame and a rude shock
 to reformers throughout the world, if
 for any cause America abandoned the
 policy and returned to the drink evil."

Declares N. E. Leads U. S. To Prosperity

New England was leading the na-
 tion in its way of the economic de-
 pression according to a statement
 made by Assistant Secretary of the
 Treasury Seymour Lowman. Secre-
 tary Lowman based his remarks upon
 reported increases in the customs col-
 lection in this section, chiefly at Bos-
 ton and Providence.

Lowman, who with Capt. F. X. A.
 Eble, commissioner of customs, con-
 ferred with the New England cus-
 toms collectors here, said New Eng-
 land was the one bright spot in the
 country from an economic point of
 view.

AT THE AUDITORIUM—BRATTLEBORO, VT.

THE SPIRIT OF NOTRE DAME

One of the big pictures of the year is the "Spirit of Notre Dame" which is to be shown at the Brattleboro Auditorium Monday and Tuesday, October 26th and 27th.

"The Spirit of Notre Dame" is without a doubt, one of the greatest showmanship opportunities in the history of the picture business. It has received a million dollars worth of publicity during its production. Since it was first conceived by Knute Rockne there has been a steady stream of stories paving the way to insure success of this production.

"The Spirit of Notre Dame" is the spirit of youth!

Romance—thrills—laughter—tears!

All women will thrill to it—all women will be swept away by the magnitude of its romantic appeal!

Bands playing—crowds cheering—nerves tingling—as the whistle blows for the gridiron classic of the year!

Fired by tradition—meeting the test of manhood—turning defeat into victory—thundering across the screen in a glorious, unforgettable spectacle of romance and drama!

See them all—the great stars of Notre Dame—for the first time on any screen—in this red-blooded, romantic drama of youth!

The true story of boys striving, struggling, fighting, sacrificing to make the big team!

It is real—it is true—it is authentic—it is just as Knute Rockne would have wanted it—and it is, in all reverence, dedicated to him—the friend of youth—the maker of men!

Mothers!—Here are your sons—living, loving, fighting for supremacy in a glorious, romantic football drama!

Youth—romance—bright college years—carefree sweetheart days! It will make your heart beat faster—you will be swept away by nerve-tingling emotions!—All women will love it!—All men will thrill to it!

Mothers!—Wives!—Sweethearts!—thrill to this pulsating, vibrating story of youth meeting the test of manhood!

Down the field they go—bands playing—crowds cheering—men of steel fired by the glorious Rockne tradition of FIGHT! FIGHT! FIGHT!—for the glory of the team! Don't fail to see the "Spirit of Notre Dame."

Views Of Our News

By Chicagoan

CHICAGO, Ill., Oct. 20 — Hello, Northfield folks! You didn't know it but I've been looking at you, viewing you as you were reflected in the columns of last week's Herald. You'd be surprised to know what a faithful mirror of your community I found this newspaper to be.

If Publisher Hoehn permits, I'll write each week, telling you what most interested me in the issue of the Herald for the previous week. Later, on when we're better acquainted, I may speak rather freely at times and then I'm sure to make occasional mistakes. However, when I'm too far off the track, I hope some of you'll call me back by dropping me a line in care of this paper. Your letters will be forwarded and I promise to give them prompt attention.

Before going a single line father, we'll settle one thing so that it need never be mentioned again. None of you knows me. I've never been in Northfield and there's not a chance in ten thousand that you've ever seen me. I'm just an odd piece of humanity that's been tossed about on life's sea for quite a spell. Now I find my keenest pleasure in reading the good weekly newspapers coming to my desk. Such papers as the Northfield Herald are ever so much closer to the lives of their readers than are the metropolitan sheets. In future letters I'll say very little about myself, but will confine my remarks to the impressions gained from reading The Herald from week to week.

A hand of welcome to the little babes that recently arrived to brighten the Rev. Duncan M. Olmstead, and Bernard Whitney homes. Some years hence when they read of their respective weddings in The Herald, what other items do you suppose will greet their eyes? What wars will have been fought; who will have wedded and who will have died: who will be in Congress then and will they still be arguing about prohibition and the tariff; what will be the most popular means of transportation in that day? Oh, I could lose myself in such speculation.

Congratulations to Mr. and Mrs. John M. Blood! Here we have two happy people who are undaunted by tales of panics and possible foreign entanglements or by the doubtful effects of the Farm Board's new policy! 'Tis upon such optimism that the progress of the world depends. May their voyage on the sea of matrimony be free from storms—and icebergs.

What an interesting life was that of Homer Morgan Smith, respected citizen who passed away last week. During his stay on earth wars altered its ways several times; wildernesses were converted into fruitful fields and contrivance invented and perfected that we consider necessities yet he lived happy many years without them. He witnessed the fall of the mighty from their thrones and saw the obscure and humble rise to positions of power. Truly, it was a wonderful age that wrote its history before the eyes of this noble gentleman and interesting as well as useful was his long life!

If you don't want the whole world to know about your business don't advertise it in the Herald. How do you suppose I learned that E. L. Morse has Dry Hard Wood for sale? Nope, a little bird didn't tell me, I read the ad in last week's Herald.

For Sale: — 1-1929 Tudor Sedan, \$265.00; 1 — 1930 Tudor — nearly new, \$395.00; 1 — 1930 Tudor — 9,000 miles, \$365.00; 1—1929 Touring, \$200.00. Spencer Bros. Adv.

Nothing less than a six can give you built-in smoothness

CHEVROLET The whole question was settled long ago—as to how many cylinders it takes in a motor car engine to give satisfactory smoothness. Science definitely established the fact that at least six are necessary. And today, the public accepts the multi-cylinder engine in the same way that it accepts 4-wheel brakes, parallel-mounted springs and every other principle of proved and acknowledged superiority. Everybody knows that nothing less than a six can give you built-in smoothness.

Today, six-cylinder smoothness is within reach of every new car buyer. For Chevrolet has produced a quality car, powered it with a firmly-mounted six-cylinder motor-engineered it to run with unsurpassed economy—and priced it down among the very lowest-priced cars in the market.

Center School Playground Program

The suggestion offered by Miss Pozzi, recreation specialist, in her recent talk before the Parent-Teacher Association, brought results Friday night, when the playground committee of the Center School assembled at the home of the chairman, Mr. Harry James to meet Miss Pozzi and Mr. Alger, the county club agent.

The money raised for the playground project by the play of last winter and the food sale is not enough when divided among the five schools of the town to permit the purchase of the desired apparatus. At a meeting of the combined committees of all the schools, under the chairmanship of Mr. Fitt, which was held prior to the Parent-Teacher program on Monday evening, the sum of \$100.00 was appropriated from the treasury, and divided equally among the schools, thus giving the Center School \$20.00 as its share.

Therefore the committee is co-operating with the Franklin County Extension Service which is greatly interested in and invaluable to such projects. Mr. Alger is this week to organize the boys of the upper grades in the Center School into 4-H Manual Training classes. A most capable leader and instructor has been secured in Mr. Henry Johnson, who, through the courtesy of Fire Chief Galen Stearns, has obtained the use of the room over the fire house as a warm, convenient place in which to hold the meetings. Under his instruction, and the supervision of Mr. Alger, the boys will make certain equipment for the playground, the material being paid for from the fund, and all will have a share in installing the pieces, supervision of the playground, and responsibility for certain sections.

Mr. James has had two substantial saws made by Mr. Clifford Field. These are completed, and are being installed this week. Other pieces will be available in about two weeks, as well as courts marked out for volley ball and basket-ball.

It is hoped to hold a track meet after the clubs are organized and the jumping pit completed, to strengthen interest in the project as a whole. It must be recognized that results in such a development are necessarily slow, and dependant for growth on public interest and community spirit.

Faults Are Revealed By Warwick Audit

The state audit of the town accounts of Warwick for the period from November 18, 1928 to June 16, 1931, has just been completed by the state auditors and reveals quite a number of faults.

Chief Accountant Edward H. Fenton has filed his report of the audit with Theodore N. Waddell, director of the division, and a copy has been sent to Chairman Frank W. Webster of the Warwick selectmen.

"Considerable difficulty was experienced in reconciling the treasurer's cash," says the report, "due to the numerous errors in entering receipts and payments on the cash book. These errors, which are given in detail in an appended table showing a proof of the treasurer's cash, were adjusted, and the corrected cash balance on June 16, 1931, was proved by an actual count of the cash on hand and by a reconciliation of the bank account. Excess cash of \$247.64 in the treasurer's accounts was found, which may be due to receipts not entered on the cash book or to treasurer's personal cash included in the town cash.

"It is recommended that all receipts and payments be entered promptly on the cash book, that deposits in the bank be made to correspond with the total items of receipts for a given period as entered on the cash book, and that the treasurer's cash book balance be reconciled at least monthly with the bank account and the cash in the office."

The town's balance sheet as of June 16, last shows assets of \$34,754.07, including cash of \$2985.83 and an overdrawn account of \$150 for printing town reports. Outstanding taxes 1927 to 1930, inclusive, amount to \$2,697.38 and outstanding motor vehicle excise taxes, 1929 to 1931, inclusive to \$594.94. Revenue to be provided by appropriations, less estimated receipts collected, totals \$19,307.34. Liabilities included temporary loans of \$6000; appropriation balances of \$20,576.28; reserve fund, overlay surplus, \$2809.59; overlays reserved for abatements, \$993.48 and surplus revenue of \$1631.52. The town has debt accounts of \$8,000 and 3 trust accounts totalling \$13,614.95.

Northfield is proud of its pharmacists and holds them in high esteem.

The new Deerfield Academy at Old Deerfield, the dream of Principal Frank L. Boyden back in 1924, was realized recently, when the 250 pupils of the coming year found available for use two handsome new buildings which have been erected during the past year. One of these is the substantial colonial brick structure which will be the school proper and the other a splendid gymnasium which

houses facilities comparing with any college gym in the United States. The latter, while not fully completed is usable and the rooms remaining to be finished, will be put into complete order before the spring commencement.

One of the most interesting movements of the year is a nation-wide project to collect nuts from historic points throughout the country and then to encourage their planting in all sections of the country adapted to the growth of such trees, in the hope that the number of nut trees in the United States can be increased by several million during the next five years. Originally undertaken by various forestry and similar associations, this project has recently received the endorsement of the Boy Scouts and of

the National Grange, two organizations particularly well fitted to spread the number, both as concerns collection and distribution of the nuts.

A rooster wandering about the country came across an ostrich egg. Pushing it with one foot and then the other, he managed to roll it back to the hen yard. Calling the hens together, he said: "Now girls, I don't mean to complain, but I just wanted to show you what they are doing outside."

A young friend on his way to school, had eaten too many green apples. During the morning the teacher asked him: "Teacher: Johnny, can you tell what season this is?"

Johnny timidly: Well, I don't think it's the apple season.
Teacher: How do you know that?
Johnny (spurred on by the pairs in the region of his stomach): I have inside information.

Alice: Did you know Frank was knocked senseless when he was a boy?
Genevieve: When do they think he'll recover?

"Hello, Tom, got a job yet?"
"Yes, I'm selling furniture now."
"Selling much?"
"Only my own so far."

As the legend goes, an Irish policeman was taking an examination for promotion:
Question: What is rabies, and what do you do about it?
Answer: Rabies is Jewish priests, and you can't do nothing about it.

This depression cannot finally be cleared up until the people think less about having a good time and more about doing a good job.—Roger W.

Dissatisfied Tenant: That house I have taken from you is horribly

draughty. When I am sitting in the middle of the room my hair blows all over my head. Can't you do something about the windows?

Agent (suavely): Don't you think, sir, it would be much easier and cheaper for you to get your hair cut?

Raymond, Sr.: Stop reaching across the table, Junior! Haven't you a tongue?

Raymond, Jr.: Yes, sir, but my arm is much longer.

Lady (who had just received an interesting bit of news): Marjorie dear, auntie has a new baby, and now mama is the baby's aunt, papa is the baby's uncle, and you are her little cousin.

Little Marjorie: Well wasn't that arranged quick?
